

**AMENDMENTS TO THE ABSTRACT**

Kindly replace the original Abstract with the enclosed Abstract.

### **ABSTRACT OF THE DISCLOSURE (clean copy)**

A storage device stores medicine codes associated with respective medicines and combination modification information corresponding to a combination of medicine information rearranged according to the medicine codes, and a combination adequacy judging device rearranges the medicine information according to the medicine codes stored in the storage device when two or more medicines are included in information of one or more prescriptions for a patient, and judges combination adequacy with reference to the combination modification information called from the storage device according to obtained order and combination of the medicine information. This makes it possible to appropriately judge the adequacy of the combination even when three or more medicines are combined.

### **ABSTRACT OF THE DISCLOSURE (mark-up)**

A storage ~~means (2)~~device stores medicine codes associated with respective medicines and combination modification information corresponding to a combination of medicine information rearranged according to the medicine codes, and

—————a combination adequacy judging ~~means (1)~~device rearranges the medicine information according to the medicine codes stored in the storage ~~means (2)~~device when two or more medicines are included in information of one or more prescriptions for a patient, and judges combination adequacy with reference to the combination modification information called from the storage ~~means (2)~~device according to obtained order and combination of the medicine information. This makes it possible to appropriately judge the adequacy of the combination even when three or more medicines are combined.
